- **Prevents back problems**
- **Turn 360 degrees**
- **Battery suction pads possible**
- **Fits easily in your work van.**
- **The vacuum lifter detachable for use on other light weight glass lifters.**
- **Supplied complete with 2 wooden protection/tilt corners**

Transport small and easy

Ready for use

Push the lifter forward, activate the suction cups, and slightly raise with the winch.

Transport across uneven terrain, over curbs, and through very narrow passages.

Installing the glass: the suction cup moves along a cable, providing a wide reach. It can rotate and reach all the way to the ground.
